Staying Safe Online

In Partnership with the
NSPCC

Online Safety Newsletter 1

January 2026

This Term's Focus: **PLAY. PROTECT. ACT. SAY**

We all want to keep our children safe online. They're growing up in a time where screens are everywhere and the internet plays a big part in their lives, even from a very young age.

As parents and carers, it's important to have conversations with your child about how to explore the online world safely. That's where NSPCC's Techosaurus comes in, with four key lessons:

Play • Protect • Ask • Say

Each lesson offers simple, practical advice about staying safe online while still having a good time.

We know that talking regularly with children about these important messages can make all the difference and help keep the internet an educational, entertaining, and safe environment.

Say if anything has made you feel upset

Play and be kind online

Ask before you try something new online

Protect your personal information
